

# Data, Reporting & Analytics

The Biola community use various tools and resources to store, manage, report on, and analyze data.

## Data, Reporting & Analytics Systems

[Cognos Analytics and Course Pallet](#) - Used by Biola Staff and Faculty to pull course information (e.g. instructor, location, enrollment, etc.).

[FileMaker Pro](#) - Used by Biola departments as an information database that can be collaboratively managed.

[Tableau](#) - Used by Biola Staff and Faculty as a data analytics software to visually display abstract data in a clear and compelling form.

[Tableau Reader](#) - A free tool for users to view Tableau data.
